

CONDENSED COWDEN SUPPORT PROGRAM INSTRUCTIONS

- ▶ As soon as you receive the kit for each month, immediately open the box, remove, and success any bottles which have a sticker labeled "INFUSED". Instructions on how to success infused products are at the bottom of this page.
- ▶ Before each use shake the liquid products well.
- ▶ Mix the liquid products together in a glass, porcelain or paper cup (not Styrofoam, plastic or metal) then add at least a ½ cup (4 oz./120ml) of water (preferably mineral water and not distilled water). Let the blended products and water sit for 1 minute before drinking (longer is fine). Minimize your exposure to plastics (try to drink from glass as much as possible and try not to eat or drink food / fluids that have been in plastics) The products are most effective when taken in water. The products can be taken directly in the mouth without water, but this should only be done when water is not available.
- ▶ Check the "Done:" box on the Program Schedule sheets after taking each dose so that there is no confusion as to whether the dose has been taken. Background color changes on the schedule represent a change from what products were taken at the same time the previous day.
- ▶ If feeling toxic (headache, muscle ache, nausea, joint ache, etc) the program can be stopped if desired, then take 10 drops of **BURBUR** or **PARSLEY** in water or under the tongue every 10 min. until feeling better and then resume the program. If the symptoms do not resolve by the time of the next scheduled dose of the **MICROBIAL DEFENSE** products then skip that one dose. If this happens more than once then consider increasing the dosage every 1-2 days instead of every dose.
- ▶ Drink 3-4 liters (quarts) of pure water daily (preferably mineral water and not distilled water).
- ▶ Please note that **ZEOLITE** used from day 4 through day 46 is a different product from **ZEOLITE HP** which begins on day 49.
- ▶ Avoid common food allergens - all cow milk and cow cheese products, most wheat products, all corn products (corn oil, corn starch, and corn syrup), peanuts and peanut oil (most oriental foods), soy products (it is a common filler in fast food restaurants), black pepper, white pepper, sugar (may substitute NutraMedix **STEVIA**).
- ▶ The first bottle you receive of the following products: **BANDEROL**, **SAMENTO**, **MORA**, **ENULA**, **CUMANDA**, and **QUINA** will be infused and there will be an "INFUSED" sticker on the label of these bottles. These are the master bottles and should be kept as the bottles in use indefinitely. Only 2 of these 6 products are used on any given day.
- ▶ Master bottles should be succussed every 3-4 days if they are in use. Succussion (suc-cus-sion / su-kush'un) is the rapid and forceful striking of the bottle against a firm surface or palm of the hand fifty or more times. **Remember to be cautious when succussing glass bottles.** Use a firm padded surface, like your hand, but not a hard surface.
- ▶ When ¼-⅓ of an inch of liquid is left in the bottle, refill the bottle using the liquid from a new bottle of identical product and then immediately succuss fifty or more times. The last ¼-⅓ of an inch of liquid in the first bottle is the basis for making your second bottle of infused product as described above. Do NOT use all of the liquid in the Master bottle before blending with the contents of the second bottle. The bottle should be succussed each time it is refilled and again every 3-4 days thereafter if it is in use.
- ▶ Many users choose to continue the program beyond the 6th month. To facilitate this, make sure to keep all Master bottles with a minimum of ¼-⅓ of an inch of product in each one for future use.
- ▶ **WARNING:** Binders such as Activated Charcoal & Calcium Bentonite Clay should be avoided while using the Condensed Cowden Support Program. Activated Charcoal always binds the active ingredients that are in the herbal remedies and pharmaceuticals and makes them ineffective. They should only be considered on the rare occasion when you have been severely affected by a Herxheimer reaction that does not resolve with Burbur, Parsley, Pinella, or water.
- ▶ **IMPORTANT:** Reorder products for your next month two weeks in advance to ensure no interruption of the program.
- ▶ **OPTIONAL NUTRAMEDIX PRODUCTS:** For extreme fatigue, 20 drops of **ADRENAL SUPPORT** can be taken, twice daily 10-15 min. before breakfast and supper. For stress and difficulty sleeping, 15 drops of **AMANTILLA RELAX/SLEEP** can be taken 4 times daily, after meals and 30 min. before bedtime.

THIS PROTOCOL IS NOT EFFECTIVE UNLESS YOU ARE DRINKING 3 LITERS (QUARTS) OF WATER THROUGHOUT THE DAY
