IMPORTANT INFORMATION

DOSAGE

The dosages recommended in the following protocols are for an average size adult that weighs between 120-170 pounds (55-77 kilos). Adjust the dosage according to weight; ie. a patient that weighs 30 pounds would take one-fourth of the recommended dose.

MIX THE PRODUCTS IN PURE DRINKING WATER

Unless otherwise specified mix all Nutramedix products with at least ½ cup (4oz. / 120ml) of water and wait at least 1-2 minutes before drinking. The products are most effective when taken in water. The products can be taken directly in the mouth without water, but this should only be done when water is not available.

PRODUCT COMPATIBILITY

Some of the products can clash with each other and the effectiveness diminished if they are taken at the same exact moment. It is best to take those products at least 10-15 minutes apart. The following protocols make clear which products can be mixed and taken at the same glass of water.

For further information, a product compatibility chart is posted at <http://www.bionatus.com/nutramedix/pdfs/prodcomchart.pdf>

HERXHEIMER REACTION (HEALING CRISIS)

If feeling toxic (headache, muscle ache, nausea, joint ache, etc) the protocol can be stopped if desired then, take 10 drops of BURBUR or PARSLEY DETOX in water or under the tongue every 10 min. until feeling better and then resume the protocol.

ANXIETY / PANIC ATTACK

Causes: Usually subconscious emotions of fear originating in early childhood, tissue acidity and mineral deficiency

Treatment: Take 15 drops of **AMANTILLA** together with 15 drops of **TRACE MINERALS- RELAX** every 15 min. until symptoms subside then take them four times daily at mealtimes and at bedtime.

Three times daily 15 min. before mealtimes take 15 drops of **ADRENAL SUPPORT**

Twice daily at mealtimes take 2-6 capsules of **MAGNESIUM MALATE** (only if kidney failure is not present) starting with 2 capsules twice daily increasing the dose until moving bowels at least 2 times a day.

After the acute panic attack has been resolved start taking 8 drops of **EZOV-** before bedtime (start with one drop adding one drop per dose every 5 days, after reaching 8 drops per dose take for 2 months)

Also recommended: Drink 3-4 liters (quarts) of water daily (clean mineralized, not distilled or reverse osmosis), **Chromium polynicotinate-** 200mcg twice daily, **B-Complex vitamin-** every morning.

ARTHRITIS (OSTEO AND RHEUMATOID)

Causes: **Osteo-arthritis:** unrecognized fungal, viral or parasitic infection in the joints, environmental toxins accumulating in the joints, tissue acidity, mineral deficiencies, osteitis of the jaw, pulpitis of the teeth. The condition is made worse by chronic abuse of the joints like jogging on concrete. **Rheumatoid arthritis-** immune reaction against the cells that line the joints caused by toxins or viruses in the synovial cells.

Treatment: **FOR PAIN-**Take 20-30 drops of **CONDURA** as needed placed under the tongue and held for at least 2 minutes and at the same time apply topically on the site of pain using the number of drops necessary to cover affected area.

Twice daily 30 min. before mealtimes take 20 drops of **SAMENTO** (start with one drop twice daily slowly increasing the dose until reaching 20 drops twice daily) together with 15 drops of **TRACE MINERALS-RELAX** and 10 drops of **PARSLEY DETOX**

Every 3rd night at bedtime take 10 drops of **ALGAS METAL DETOX** together with 15 drops of **TRACE MINERALS-RELAX**

Also recommended: Drink 3-4 liters (quarts) of water daily (clean mineralized, not distilled or reverse osmosis), **Avoid common food allergens-** all cow milk and cow cheese products, all corn products (corn oil, corn starch & corn syrup), peanuts and peanut oil (most oriental foods), soy products (it is a common filler in fast food restaurants), black pepper, white pepper, sugar (may substitute Nutramedix STEVIA). **Avoid foods in the nightshade family** (the alkaloids in them cause inflammation to worsen)- potatoes, tomatoes, peppers, eggplant, tobacco and coffee are the worst.

BIONATUS LABORATORIES

LYME BORRELIOSIS (LYME DISEASE)

Causes: Borrelia burgdorferi bacterial infection and usually one or more of the following microbial infections; Erlichia, Babesia, Bartonella, Mycoplasma, Coxiella, etc. Heavy metal toxicity (usually mercury) plus pesticides, herbicides, petroleum byproducts and plastics make the patient more susceptible to these toxins.

Treatment:

For the first 3 days do only the following:

Three times daily immediately before mealtimes take 15 drops of **TRACE MINERALS- RELAX**, 10 drops of **PINELLA**, 10 drops of **BURBUR** and 10 drops of **AMANTILLA** (the noontime dose can be eliminated anytime after day 21 if not feeling toxic)

On Day 4 of the protocol add the following:

Twice daily 30 min. before breakfast and supper take 30 drops of **CUMANDA** (start with one drop twice daily slowly increasing the dose until reaching 30 drops twice daily) together with 15 drops of **TRACE MINERALS-RELAX**, 10 drops of **PARSLEY DETOX** and 1 capsule of **SERRAPEPTASE**

Twice daily immediately after breakfast and supper take 20 drops of **ADRENAL SUPPORT** together with 11 drops of **BURBUR DETOX** and 2-6 capsules of **MAGNESIUM MALATE** (only if kidney failure is not present) starting with 2 capsules twice daily increasing the dose until moving bowels at least 2 times a day.

Every 3rd night at bedtime take 2 capsules of **ZEOLITE**. On day 49, after using the entire bottle of **ZEOLITE**, take 2 capsules of **ZEOLITE HP** in place of **ZEOLITE**.

On Day 18 of the protocol add the following:

At bedtime take 20 drops of **SAMENTO** together with 10 drops of **PARSLEY DETOX**, 15 drops of **TRACE MINERALS-RELAX** and 10 drops of **AMANTILLA** --- Note: as described above, every 3rd night 2 capsules of **ZEOLITE** or **ZEOLITE HP** are taken.

After two months on full dose of Cumanda, start taking **QUINA** in place of Cumanda. Then, alternate between Cumanda and Quina every two weeks for 4 months (some patients require only 2 months of rotating therapy, but it may be more prudent to rotate for 4 months). Take Cumanda for 12 ½ days stopping for 36 hours then, continue with the Quina for 12 ½ days, stopping for 36 hours. Then, restart with Cumanda for 12 ½ days, etc. Most patients with chronic, third stage Lyme Disease require four to six months of alternating treatment but never less than two months.
